

## **Children and Young People's Social Care**

Leeds Children and Young People's Social Care works with some of the most vulnerable children, young people and families including disabled children with physical or sensory impairments or learning difficulties, also those with mental health needs or other complex needs. We want all our children and young people to be happy, healthy, safe, successful and free from the effects of poverty. Where support is not enough we will take action to protect them.

We work with many partners in council services, education, housing services, health, private providers and the voluntary, community and faith sectors. We work with other organisations to safeguard, help and support children, such as:

- disabled children and children who are ill;
- children looked after and care leavers;
- children who are in need or at risk of being harmed or abused.

Our teams work with children and families in their homes and communities. Our services are open to people from all cultures and backgrounds. We believe that children should be able to live in a happy and loving environment. We help families get support and information so that this can happen.
